

ExamName : hyd

Subject/PostName : chemistry

PART-I

DESCRIPTIVE QUESTIONS

1.explain the benzene formulation ?

Compulsary-question

2.explain the concept of water formulation ?

Medium-Level

3.expalin the process of galvanization ?

High-Level

4.exaplain any of the two topics from below

a)h₂o formation

b)hydroelectricity generation

c)thermal power generation

Low-Level

PART-II

MULTIPLE CHOICE QUESTIONS

1. ozone chemical formulae

Compulsary-question

A. o₂

B. o₅

C. o₃

D. o₆

Right Answer:C

2. H_2O_2 means

High-Level

- A. ozone
- B. water
- C. hydrogen peroxide
- D. hydrogen

Right Answer: B

3. high resist metal

Low-Level

- A. iron
- B. stainless steel
- C. copper
- D. aluminum

Right Answer: A

4. chemical formulae of sulphuric acid

Medium-Level

- A. H_2SO_3
- B. HSO_4
- C. HSO
- D. H_2SO_4

Right Answer: D
