

ExamName : hyd

Subject/PostName : chemistry

PART-I

DESCRIPTIVE QUESTIONS

1.explain the benzene formulation ?

Compulsary-question

2.explain the concept of water formulation ?

Medium-Level

3.expalin the process of galvanization ?

High-Level

4.exaplain any of the two topics from below

a)h<sub>2</sub>o formation

b)hydroelectricity generation

c)thermal power generation

Low-Level

PART-II

MULTIPLE CHOICE QUESTIONS

1. ozone chemical formulae

Compulsary-question

A. o<sub>2</sub>

B. o<sub>5</sub>

C. o<sub>3</sub>

D. o<sub>6</sub>

Right Answer:C

2.  $\text{H}_2\text{O}_2$  means

High-Level

- A. ozone
- B. water
- C. hydrogen peroxide
- D. hydrogen

Right Answer: B

3. high resist metal

Low-Level

- A. iron
- B. stainless steel
- C. copper
- D. aluminum

Right Answer: A

4. chemical formulae of sulphuric acid

Medium-Level

- A.  $\text{H}_2\text{SO}_3$
- B.  $\text{HSO}_4$
- C.  $\text{HSO}$
- D.  $\text{H}_2\text{SO}_4$

Right Answer: D
